- Actually a pretty cool guy, he does what he can to help when people need it.
- Easy 100
- Great TA!
- He came to class each day with awesome enthusiasm, he had everyone participate by putting problems up on the board which was really helpful, and he had his copy with the answers and instructions that we could take pictures of after class in case we were still confused. He was efficient but still made sure to answer all questions. Amazing TA
- None
- The only reason I did not see Alec for office hours was because recitation was already so helpful enough for me. He did an excellent job at enhancing my skills in areas that needed help.
- Would recommend.
