Term: Fall 2019

Form: Chemistry - Recitation TA Evaluation

Instructor: Beaton Jr, Alec Angus

Class: CHE106 Section M006 (General Chemistry Lecture I)

Responses: 21 Enrollment: 35 Response Rate: 60.0%

Comments:

- He helped me learn a lot and had a different way of explaining things than Dr. French, so if I didn't understand it the first time, it was nice to have him explain it differently.
- He is amazing ! I think he really puts in a lot of effort into making sure we succeed.
- He was a good recitation teacher but some times he spoke so fast it was hard to understand and he got confused explaining stuff sometimes but it seemed like it might have just been nerves because you can tell he knows all the material really well.
- N/A
- Outstanding TA, the best one I had this semester. Showed a true enthusiasm for teaching chemistry, and was very good at it. Explained concepts thoroughly and in depth.
- Thank you for being so willing to help us out and understanding students' perspective on this class.
