Responses: 45 Enrollment: 91 Response Rate: 49.5%

Comments:

- TA was very helpful and taught the subject matter very well. The recitation was broken up into parts with always room for questions. TA always presented tricks and tips for the material.
- Thanks for helping the day before the exam.
- The TA was good, but I think that the discussion sections should be structured differently rather than just a problem set.
- The TA was helpful with questions and preparing the students for exams.
- This TA was very knowledgeable on chemistry topics. He would also go into depth when going over the recitation worksheets and explain easy ways to remember important ideas. He also would emphasize certain topics that he knew we would need for the exam or in future chemistry courses.
- Very helpful and knowledgeable on each chapter discussed. Approachable as well.
- Very helpful explanations of concepts. Worked really well with the students in the class.
- Very helpful, always encouraged learning outside of recitation and was comfortable with his knowledge of the subject
- very informative and helpful
- Was able to explain things very well
